27. Central Contractor Registration (CCR)	Registered.

II. Advantages of Using MOBIS for Contracting with Perspectives

Any federal agency can quickly and efficiently order services under these task order-type contracts. Select a contractor, issue a task order, and have the work begin within a few weeks, regardless of whether the project is small or large (up to the \$1M task order limit).

Key advantages if using GSA MOBIS include **very low administrative burden, savings of time, and great flexibility**.

- You can typically select a vendor and have a contract in place in just a few weeks.
- When you place an order using MOBIS, the order will be considered to have been placed using “full and open competition.”
 - There is **no requirement to use FedBizOpps**.
 - GSA has already determined that prices are “fair and reasonable.”
 - All applicable **federal procurement laws and regulations have already been applied**.

Through MOBIS you can also establish a “Blanket Purchase Agreement” (BPA) with Perspectives even if you don’t know the precise timing or amount of effort that your project will require.

The MOBIS process requires 3 simple steps:

1. Develop a Statement of Work (SOW) and forward it to your Contracting Officer.
2. Solicit bids from several GSA Contractors; and select the “best value” contractor. Your selection is, in almost all situations, not subject to protest.
3. Place your order directly with Perspectives.

GSA does not get involved in your procurement process (but is available to assist if you prefer).

III. Company Background and Strengths

Perspectives was founded in 1980. For the last 10 years the firm has worked primarily with Science & Technology (S&T) organizations in government and in industry. The firm assists clients with a variety of management consulting services:

- Strategic planning
- Program development
- Program evaluation
- External benchmarking
- Market intelligence
- Technology assessment
- External review
- Intellectual property mapping.

Deliverables typically include:

- Program recommendations
- General analytical support
- Benchmarking studies
- Whitepapers
- Conference presentations.

Perspectives functions as a partner to program managers and project teams. The firm's expertise in S&T project management has led to work assisting Sandia National Laboratories, Lawrence Livermore National Laboratory, and others in efforts relating to:

- Solid-state lighting (i.e., semiconductor LEDs)
- Biodefense
- Physical security
- Border control
- Protein science
- Microfluidics
- Nanotechnology
- Fiber lasers
- Imaging
- Nuclear and radiological countermeasures.

Perspectives excels at producing open source intelligence by gathering and synthesizing publicly available information (e.g., expert interviews, scientific literature, patent databases, on-line resources). Clients look to us to collect, analyze, and deliver information in a digestible format (usually a series of reports and/or summary teleconferences), and use the information to improve the client's project plan and/or project potential. In the past 3 years, we have averaged between 15-20 individual projects. The vast majority of our business is from repeat clients.

References are available. Further information on the company is also available at www.perspectivesweb.com.

IV. Scope of Work

Perspectives is able to offer a range of management consulting services to federal agencies through GSA MOBIS. Perspectives is approved for SIN 874-1, which covers a range of consulting services:

“Contractors shall provide expert advice, assistance, guidance or counseling in support of federal agency management, organizational and business improvement efforts. This may also include studies, analyses and reports documenting any proposed developmental, consultative or implementation efforts.”

Examples of work that can be performed under 874-1 include:

- Strategic, business and action planning
- Process and productivity improvement
- Systems alignment
- Performance measures and indicators
- High performance work
- Cycle time
- Program audits
- Program evaluations.

V. Rates

The following table presents Perspectives' GSA labor rates, including the 0.75% Industrial Funding Fee (IFF).

Labor Category	Hourly Rate
Principal	\$130.00
S&T Projects Director	\$124.96
Special Projects Director	\$116.47
Director, Research	\$107.32
Sr. Research Analyst	\$83.06
Research Analyst	\$75.78
Jr. Research Analyst	\$57.88
Research Assistant	\$38.47
